28	1. Page 15: With respect to unmanned posts, #2 states there are no unmanned posts at any time, including relief for breaks and lunch "where necessary". Meal and rest breaks are mandated by the State of California so the clarification we have is in respect to the wording "where necessary". Does this infer that there are certain sites that it would be acceptable to allow officers to take uninterrupted breaks as required by California labor law and not be on post in cases such as remote posts? Are all breaks, including two 10 minute rest breaks per day, expected to be covered by a supervisor or breaking officer, for all posts? Even remote posts?	In most instances a supervisor would relieve the guard if it is a one guard post.
29	2. Page 12 on page 17 of 61: States that guards must be "eligible for a bond". Officers are not individually "bonded". For clarification does this mean that the officers shall be insured under the company crime insurance policy? If not, can the County provide additional information on this expectation?	N/A

30	3. Additional Lobby Ambassador Requirements (i) (i) states that the officer is uniformed in a suit. (iii) states that this officer is armed. Please confirm the expectation is for an open carry permit for this officer and not a concealed carry.	It is open carry.
31	4. Firearms: Are officers allowed to carry personal weapons for which they are permitted to carry or are must firearms to be provided to officers by the contractor? Are there any firearm caliber, type, or ammo requirements/restrictions?	Vendor to submit their standards to the County for review and approval on firearms and ammo.
32	5. 2(c) page 23: If the County requires the officers to undergo these additional County provided background checks at contractors cost, what is the cost to perform these checks? Same question for 2(d).	See answer in question 13 above.
33	6. 5(5) page 27: States that if proposal is submitted electronically through EPro, that we are NOT to submit Attachment E electronically, and that Attachment E must be submitted in person or by mail. Bottom of page 51 in the RFP states that we are to respond on a separate Attachment E "Fee Proposal Sheet" located in EPro for all three years. To complicate matters even more, the separate attachment we were provided for Attachment E states on the bottom: Attach in EPro, mail, or submit in person. This is a bit confusing. Can the County please clarify how they want the Attachment E submitted?	Proposer can submit RFP via ePRO or hard copy. However, Exhibit E - Proposal Cost Sheet must be submitted separately (ePro or hard copy).
34	7. Please confirm that we can submit the technical proposal (without Attachment E) electronically through EPro and that no hard copy would be required.	Yes, see answer above.
35	1. Does the County intend to award a single contract to a single provider or is the County considering splitting up the SOW and awarding to more than one provider? Overhead costs vary greatly depending on the actual workload, so if the County is considering splitting the contract we would respectfully ask that it be disclosed accordingly so that proposers can take into account overhead items such as non-billable management staff needed that would vary greatly depending on the hours per week awarded.	Previously the County has awarded multiply vendors. Workload varies based on department preference.
36	2. 2) Page 15: With respect to no unmanned posts: the current supervisory ratio specified in the RFP is 1 supervisor per 20 officers. If the intent is to provide meal and two rest breaks for each officer in the field, this is not remotely possible with a 1:20 ratio. California law requires an "uninterrupted" break, which means the officer is allowed to turn off his/her phone, leave the premises/post, etc. with zero interruptions. We want to make 100% sure the County is going to require a post to be physically staffed at ALL sites, even when an officer is taking his two uninterrupted relief breaks. If this is the case, proposers will have to factor in a huge additional relief force including vehicles to ensure that every break is physically manned. Please confirm or clarify whether the intent is to have every post covered even for the two State mandated uninterrupted rest breaks, at every site throughout the County. If perhaps this policy could be at the discretion of the site managers at the individual locations, could the County provide a list of which sites officers may be able to provide self relief and have an uninterrupted break without the need for a breaking officer or supervisor.	Supervisor only required to provide relief to a location with only one guard.
37	3. We note that pricing is to be proposed for the first three years of the contract but that the County is not asking for pricing for the two extension periods. Does the County have a policy which explains what the rates would be during these extension periods? Would the contractor have the ability to increase rates at a negotiated rate if County elects to exercise the options to extend?	San Bernardino County will determine before the 3rd year how we will exercise the two extensions.

For example, the Bureau of Admin line no. 4 (SB County Government Center) lists 675 hours per week, 21 level 1 guards, 4 level 2 guards, and 1 armed guard. Dependent on the departments specifications. See Exhibit B County Locations.
	QUESTION B: For all locations/line numbers, please provide the days and times each post is required to be staffed. Attachment E lists swing and grave shift differentials and the Contractor cannot accurately determine differential costs unless we are provided the days, start time, and end time for each post.
