Purchases or creates renewable electricity onsite (e.g., solar or wind systems) (describe and indicate the % of energy that is derived from renewable sources):

Has internal recycling (list all materials included in the program):

Has a composting program (describe):

Has received a 3d party waste audit and implemented recommendations (attach proof of implemented recommendations):

Other sustainable initiatives not listed above (provide documentation to substantiate claims):

Packaging: Has your company implemented any environmental

Do you incorporate packaging reduction, reuse, and recycling in purchasing practices (describe all practices that apply):

Other (describe):

Shipping/Transportation: Has your company implemented

Has your company implemented any environmentally sound shipping and transportation practices? Examples include, but are not limited to: EPA SmartWays member, using alternative fuel vehicles (provide types of vehicles), using biodiesel fuel in vehicles, purchasing environmentally preferable fleet products (e.g., retread tires, re-refined motor oil, low-VOC solvents, etc)? Provide a description of the practices:

Other. Please describe:

Training and Education

Describe how your company trains **staff** on the products or service that involves an environmentally preferable component? Provide a description of the practices:

Describe how your company trains educates **customers** on the products or service that involves an environmentally preferable component? Provide a description of the practices:

Certifications Bidders should familiarize themselves with issues.

Is a reporting member of the EPA or Massachusetts WasteWise Program. Provide proof of membership.

Is LEED Certified? Provide proof of certification:

Has adopted an environmental management system that is geared to continuous improvement (e.g., ISO 14000). Provide proof of an EMS audit.

Certified as a Massachusetts Sustainable Business Leader through the Sustainable Business Leader Program. Provide proof of certification.

Other industry environmental standards where applicable. Examples include CERES principles, C2C Protocol, Responsible Care Codes of Practice or other similar standards. Provide proof of standards.

Is a certified B Corporation. Provide proof of certification.

Other. Must provide appropriate documentation to substantiate claims.

Other Environmental Criteria & Product Offerings

Bidders providing any other environmentally preferable options in the price sheet, not already covered by the specifications, may provide additional information about the options here. Please include a description of the product, how the product is environmentally preferable, how pricing compares to the conventional product counterpart, links to additional information, or if attaching product information, please reference names of files, and any additional information that would be helpful for reviewer:

FAC115 Security Guard Services, Private Investigative Services, and Fence Rentals

Bidder Current Environmentally Preferable Products And Practices Form

The primary purpose of this form is to encourage potential Bidders to communicate existing business practices that foster a sustainable approach to the environment or public health, such as, but not limited to, creating less waste by using less packaging; eliminating the use of substances and/or materials that pose a risk to the environment; and the purpose of reducing air pollution and greenhouse gas emissions.

The Commonwealth considers such initiatives part of the “best value” of procurement. Bidders have an opportunity to receive additional points in the evaluation process for environmentally preferable products and practices identified. However, bidders must substantiate all answers in the space provided below or in an attachment in order to receive any additional points. The bidder must indicate the page and line to which information is referenced.

To be responsive, bidder must provide answers to questions below. If no answer, indicate "none". If not applicable, indicate "not applicable".

(box will expand as you add text)

Environmentally Preferable Products

Steps not indicated above that your firm has taken to improve the sustainability at your own operations:

Environmental packaging initiatives?

Used any of the following environmentally sound shipping and transportation practices?

Are you familiar with the various certifications and standards for products and processes that are available within the industry in which they operate?

is may include one that has a reduced impact on the
sing alternative fuel vehicles in the delivery fleet for
for the environmental initiatives they have
